

New Services at Kirtland

Kirtland Offers Placement Service

The Career Advisors at Kirtland Community College now provide job placement for students and graduates of the college. Full and part-time job opportunities in the area are communicated to the students through the medium of "Open Job" books located in the College Student Center and in the Library.

Students are interviewed by the Career Advisors prior to applying for open jobs to assure their suitability for the positions offered.

Employers wishing to hire students or graduates should make their needs known to either Bill Evans or Bill Ingleson at the college by calling 275-5121. Mr. Evans stated, "It makes good business sense for area businesses to employ Kirtland Students. It's one direct method of getting a return for their tax contributions to the college district."

Girls - Are You Prepared?

Latest government directives in the area of equality of opportunity have sent employers scurrying to find women with education and experience in fields traditionally held to be exclusively male oriented. Aircraft and Auto Mechanics, Drafting, Design and Electronic Technicians, Business and Law Enforcement Administrators and even the Building Trades are all considered "Fair Game" for the female job-hunter, but few women qualify for available jobs in these fields because they lack the technical education necessary.

Kirtland Community College encourages young women to enroll in programs designed to prepare the student for entry into previously male-dominated labor markets. Kirtland's "Open Door" admission policy, its ideal location, and beautiful campus make it an exceptional place for young women to prepare for positions in the new job market. All programs at Kirtland are coeducational and there is no discrimination in any class.

Archery Scholarships

Kirtland is in the process of identifying persons who are interested in participating in a competitive archery program. Kirtland is developing this program in conjunction with Bear Archery of Grayling.

Anyone interested in securing information about an archery scholarship should contact Ms. Carol Savino at 275-5121.

Senior Citizens

The Kirtland Board of Trustees is supporting the concept that the college should provide educational and enrichment opportunities for citizens of every age. It is important to note that Senior Citizens (persons 60 or older and spouse) may take any college class offered by the college without charge for tuition.

For more information about Senior Citizens programs, call Mrs. Gould, Kirtland Coordinator, at 348-9314.

Company officials have offered a \$500 reward for information leading to the apprehension of the person or persons responsible for the bomb threat. If you have information you are asked to contact the Grayling City Police immediately. Telephone 348-4621.

This was also our 25th Silver Anniversary Celebration enrollment event.

Several prospective members joined us for a lovely party.

Cathy Bloomquist was mistress of ceremonies and did a very nice job. It is a lot of work to make something large come (see Lt. Ruddy page 5)

Theater Group To Present 'The Mousetrap'

Grayling's adult theater group, The River Country Players, have chosen Agatha Christie's "The Mousetrap" as their third play this year. Auditions for the 5 men and 3 women's parts will be held Tuesday and Wednesday evenings, Sept. 24 and 25, in the Grayling Elementary School at 7:00 p.m.

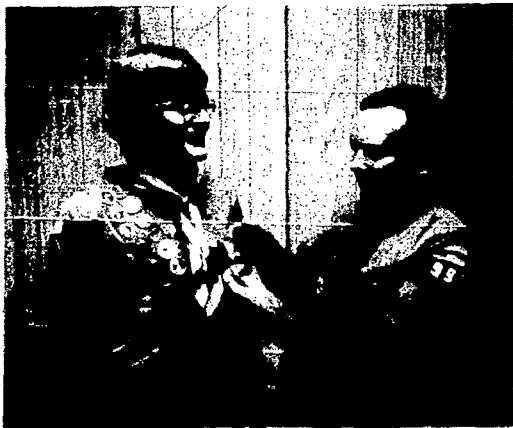

The melodrama revolves around a group of strangers stranded in a boarding house during a snow storm, one of whom is a murderer. The suspects include a newly married couple, a spinster with a curious background, an architect who seems better equipped to be a chef, a retired Army major, a strange little man, and a feminine jurist who makes life miserable for everyone.

Anyone interested in acting or working on a committee is welcome to attend. Or if directing is the challenge you prefer, call Sandy Fleming (348-7431) or Beryl Konopnicki (348-7376) before the auditions begin.

Citizens Committee Formed

The meeting will be held at 8:00 p.m. on Tuesday, October 1, 1974 in the High School library. All interested citizens are invited to attend.

KCC Trustee Board Issues Statement on Negotiations

The Faculty Association has presented the Board of Trustees with demands which are so unrealistic, that constructive bargaining is almost an impossibility.

Because of these excessive demands, both in economic and non-economic areas, the Board believes it has no recourse but to refuse to make counter offers until the Association's demands have been reduced to a more reasonable level.

The number of proposals the Association presents are meaningless when they are so astronomical in cost. Indeed the first proposal called for an increase of over 50% in salary and fringe benefits, while at the same time proposing a substantial reduction in workload. The Association's second proposal would have increased college and taxpayer costs by over 40% in salary and fringe benefits alone, without even computing the increases in the cost of de-

Lose To Rayders, 27-14 Vikings at St. Ignace Friday

The Grayling Vikings got off to a bad start in Michigan-Huron Shores Conference play on a rain soaked gridiron at Charlevoix last Friday when the Rayders handed them a

27-14 defeat.

This Friday night the Vikes will again be on the road when they cross big Mac to take on the St. Ignace Saints with the hopes of evening their league mark.

In other M-HSC action on Friday, Gaylord surprised Cheboygan, 14-6; Petoskey downed Rogers City, 27-8, and St. Ignace nipped Boyne City, 14-8.

At Charlevoix Friday, it was too much Mike Steeter as the Rayder back scored all four touchdowns on runs of 35, 8, 72 and the final one of unlisted distance due to the washed out gridiron.

Fumbles and miscues in the down pouring rain hurt the Vikings, as they lost the ball 3 times to the Rayders.

Mark Hanson, Viking quarterback, opened the scoring for the night with a 25 yard dash on a keeper after faking to Cliff Bonamie. Bonamie added the 2-point conversion for a 8-0 lead.

The Hayders came right back with a sustained drive, and with a 4th and 11, Steeter broke through for a 25 yard TD jaunt, and also tallied the conversion.

A Viking fumble on their own 23 set up a Rayder TD as they lead (see Football page 12)

MT. PLEASANT—Receipt of the first leadership gift for the construction of WCML-TV, Channel 6, was announced Thursday, Sept. 19 by Central Michigan University.

A \$10,000 gift has been contributed by the Bear Archery Company of Grayling, a division of Victor Comptometer Corp., announced William C. Odykirk, CMU executive director of development.

Fred Bear, the founder and president of Bear Archery and the honorary chairman of regional efforts to raise funds for the establishment of TV-6, presented the gift to CMU officials.

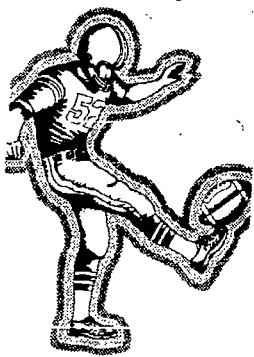

"I wanted to make sure that our company provided the first leadership gift in the drive," Bear said.

"Our's is a family company. For our family and their families, TV-6 will mean new cultural and educational opportunities. It will mean a better quality of life for all the citizens of Northern Michigan."

The TV-6 drive, now underway through the upper portion of Michigan's lower peninsula, seeks to raise \$250,000 for construction of the proposed station's transmitter and tower. The money will supplement a \$341,437 grant given CMU by the U.S. Dept. of Health, Education and Welfare.

When it is constructed, WCML-TV will provide free, public television service to about 300,000 Michigan residents. The station, which will broadcast in full color, is expected to be on-the-air in 1975.

Editor's Mailbox

September 19, 1974

Dear Mr. Madsen:

Thank you for informing everyone again that "The Bible Speaks" is paid for by the Calvary Baptist Church. Thank you also for the opportunity to reply to the author of the criticism of "The Bible Speaks" in last week's paper. It has been my practice to deal with persons in a face to face relationship, and to deal with principles through the public media. Since this person withheld his/her name, I am forced to reply through public media.

Our column, "The Bible Speaks" has had the moral support of all Bible believing, evangelical pastors in the Grayling area. I have personally checked with them periodically to make sure there is no deliberate offense to their denominations. They may not agree with every point presented, but they are in agreement with the general teachings in the column.

We have never taught or intended to imply that you must be a Baptist, or attend Calvary Baptist Church to be saved. This is not only contrary to the Bible. Even common sense denies such teaching. Why we are being falsely accused of this I do not know.

You implied last week that you agree with the test for fellowship used in Neo-pentecostal circles. That is, a subjective relationship with the Holy Spirit, rather than belief of the Bible. In spite of the fact that you accused me of being ignorant of the Bible teaching concerning the Holy Spirit, I did not detect the fruit of the Spirit in your letter. As you know, "the fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, meekness and temperance." Galatians 5:22,23. I pray you will never become as ignorant, judgmental, argumentative and ineffective as you have publicly accused me of being.

The Bible speaks truth concerning every area of life. Therefore you will not find every article of "The Bible Speaks" presenting God's simple plan of salvation. God has much more to say to us than just how to get saved. However, I am God's servant 24 hours a day to help anyone in Grayling with any question concerning their salvation. Just give me a call.

Sincerely,
Pastor Barnett

Granda-Westervelt Vows Spoken

Cheryl Ann Granda, daughter of Mr. and Mrs. George Austin of Grayling, became the bride of Wayne E. Westervelt, son of Mr. and Mrs. Albert Westervelt, also of Grayling, in a double ring ceremony Saturday, September 14, at Michelson Memorial United Methodist Church. Rev. Paul C. Frederick officiated at the five o'clock ceremony before some 300 guests.

Miss Debbie Nethers presented the music. Selections were "The Wedding March" and "For All We Know." Decorations consisted of pink and wine colored carnations.

Given in marriage by her father, Robert Granda, the bride was attired in an empire waisted floor length gown with long sleeves, alencon lace trim and a chapel train. Her fingertip veil of bridal illusion was trimmed with alencon lace and held in place by a headpiece decorated with seed pearls.

Kathy Granda served as her sister's maid of honor. Bridesmaids were Susan Austin, Marianne Granda and Veronica Weaver. Joni Austin was a junior bridesmaid and Deanna DeMartelaere was the flower girl. They wore wine colored floor length halter gowns with matching hooded empire waisted jackets. Their bouquets were of dried flowers and baby's breath, arranged by Sue Austin.

A reception followed at the Officers Club at Camp Grayling with pink and white used as a

color scheme.

Mrs. Austin chose a floor length gown of light blue for her daughter's wedding. Mrs. Westervelt, the groom's mother, wore a floor length gown of a rust colored print with matching jacket.

Following a week's honeymoon trip to the Pocono Mountains in Pennsylvania, the newlyweds are making their home at Pine Knoll Mobile Home Park.

The bride and groom are both 1974 graduates of Grayling High School.

Holmes and Mr. and Mrs. Howard Westervelt, all of Chesaning. Other out of town guests attended from Royal Oak, Southfield, Birmingham, Madison Heights, Troy and Ferndale.

Knowing you have
oil or gas on your land
is one thing.

Knowing how to profit
from it is another.

And that's where we can help.

We're the National Bank of Detroit. And we're the only bank in Michigan with petroleum engineers on staff.

Which means, when you establish a trust or property management relationship with NBD, we can give you the level of advice and management skill you need to profitably maintain your oil or gas properties. We can keep you abreast of Michigan's mineral laws and regulations. And help you invest the proceeds from your oil or gas properties through a trust account.

In short, because of experienced people like Ray George, our Trust Division Vice President and Petroleum Engineer, we can help you find out how much your oil or gas properties are worth, help you get your money's worth out of them, and help protect and invest your money once you have it.

And don't think the idea of you making money in oil is far-fetched.

The Michigan area is the 17th largest producer of oil and gas today. By 1980 this production is expected to triple—to some 150,000 barrels per day.

So if you have oil or gas on your property now, or if you're an oil operator now, doesn't it make sense to get the facts on the benefits of a trust or property management relationship at Michigan's biggest bank?

Just call (313) 225-2912.

Mercy Hospital Acknowledged

It's great to be back to work - especially when I arrived Monday morning and found out that the staff did very nicely without me.

My four days off resulted from a slight emergency - which was brought on as a result of my own stubbornness by not adhering to Dr. B.E. Henig's advice Wednesday afternoon that I should enter the hospital.

But I did early Thursday morning after a frantic call to the good doctor.

Now the essence of this column is not to relate my health problems, but, to try and give, in my opinion, long due acknowledgment to the entire staff that serves in their separate capacities at Mercy Hospital.

Yes, I for one have, in a way, just taken for granted that the hospital is there when one needs it.

Not true - each day the staff methodically goes through their tasks - taking each individual, all who have different ailments, and handling them with sympathy, kindness, and giving them the professional care that this area can be proud of.

In my own little emergency - I attest - from the minute I arrived I was whisked into X-ray, then to the lab for blood tests, up to my room for preparation for surgery, followed by the surgical nurses who came for me, and then, in a short time, back to the room for recovery - I have never seen as much compassion from so many - and when I would say thanks, their response was "we are just doing our job."

So once again I will say thanks - to the doctors, nurses on all three shifts, the nurses aids, especially for the coffee early in the morning and late at night, and anyone else whom I may have missed - for "just doing your job!"

Grayling, and the surrounding area, is most fortunate to have the facilities of Grayling Mercy Hospital.

Improve Park Facilities Here

State Senator Robert W. Davis reported today the Michigan Senate has approved more than a quarter million dollars to improve park facilities within his district.

The Capital Outlay bill allocating 1974-75 spending under the State Recreation Bond Fund specifically includes \$290,192 for 11 projects spread through the 37th Senate District.

Senator Davis provided the following capsule summary affecting Crawford County:

White Pine Canoe Camp, Crawford County - \$11,000. Repair and enlarge canoe landing, repair extensive site damage in heavily used AuSable River campground. Seed camp area with grass, add toilets, fire circles, benches and tables, and tree plantings.

Lake Margrethe, Crawford County - \$35,000. Restore 48 campsites, repair roads and eroded areas, construct beach erosion control structures, new well and pathways.

Manistee River Campgrounds 1 & 2, Crawford County - \$35,000. Repair extensive erosion, riverbank and other damage caused by heavy use. Construct 15 site campground, parking lot, canoe landing, sanitary facilities.

"This bill provides funds for a total of 22 campground projects," Davis noted, "with a total expenditure for improving them of \$609,692. This means that half of the campground projects and nearly half of the funds to be spent statewide have been allocated to our district."

THE BIBLE SPEAKS

From Calvary Baptist Church

On Denominationalism

The number of denominations in Christian circles today is commonly characterized as the greatest hindrance to the cause of Jesus Christ. Those who push for ecumenical unity describe denominations as evil and sinful because they promote division rather than unity. Those who practice Bible separation are accused of believing their denominations are the only true ones and everyone else is wrong. They are pictured as bigoted and narrow minded, unloving and self-centered by ecumenists.

In truth, we are not opposed to denominations other than our own. If you believe like a particular group of people who have banded together under a name to identify their belief, then go join with them. This is where you belong. Baptists have always fought hard for soul liberty in this country. We believe every man should have the right to worship God according to the dictates of his own conscience. We will even fight for the rights of a person to worship the wrong god in the wrong manner. To believe and practice otherwise is to jeopardize the rights of all men to worship in freedom.

A good example of ecumenism and the destruction of denominations is in Zaire, formerly the Congo in Africa. In 1970 the ecumenical protestant church was formed from the old Congo Protestant Council and called the Church of Christ in Congo. In 1972 the government passed a law which said that all protestant churches must belong to the Church of Christ in Zaire or be dissolved - under penalty of heavy fines and/or prison sentences. The end result to ecumenism will be compromise, and eventually some loss of religious freedom.

There is nothing wrong in identifying with a denomination if you agree with them in doctrine and practice. A good approach to this decision is to first examine your personal relationship with Jesus Christ. You need Jesus Christ as your personal savior more than you need any church or denomination. Second, read your Bible and pray for the Spirit of God to teach you truth. Third, avoid

the influence of family, friends or former religious experiences and training. Fourth, read a book like "Handbook of Denominations in the United States" by Frank S. Mead, and see which denominations believe closest to what you have read in your Bible. Visit those churches and ask the pastors if they accept the Bible as originally written to be without error and final authority in Christianity. "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: That the man of God may be perfect, thoroughly furnished unto all good works." II Timothy 3:16,17.

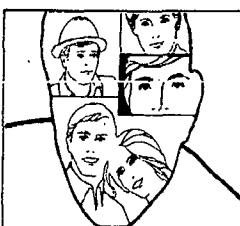

After you have read the Bible through from cover to cover, and sincerely searched out God's will concerning which church you should join, we shall rejoice with you regardless of the church you choose.

Denominations are not all bad.

Many Aries will be tempted to "buy" their way into romance. So, you might undergo a period of "all's fair in..." you know the rest!

Although your environment and circumstances might indicate otherwise; financially, things, for you, should be on the upswing. Actually, a minor setback will parlay into a major gain.

This particular week, the one thing you need least; outside "good" advice, is coming your way in bunches, big bunches! The person who can solve your problems? Yourself!

Sorry! A project that you believe is going to snowball into big things... might prove to be unproductive. Stick to proven methods, this week.

You'll be in the mood to overpower your associates. Frankly, you'll be pushy enough to elbow your way into someone else's job, task or project.

It seems as though many members of your sign will try to put a member of the opposite sex to the acid test. Advice: Let well enough alone. Play it cool! Take second best, and wait out your chance. Bluntly, it's not showdown time; you're not prepared to compete.

Don't take "throwoffs." You are entering a phase when you must know, exactly, how you stand. Incidentally, this advice applies to your relationship with the opposite sex.

Try to look beyond an associate's "outward" personality. Apparently, you'll be trafficking with a devious person. Don't air your personal problems.

You're prone to becoming a tyrant, during this cosmic cycle. Actually, you are building an empire of worthless things. Relinquish what you believe to be... additional responsibilities.

Many under your sign will widen their circle of friends. So, it's very likely that you will meet new acquaintances. Oh, yes! An admirer will toss an overture your way.

Don't spoil a member of the opposite sex by going overboard with too much kindness. You might go more than half way in affairs of the heart.

Kirtland

(continued from page 1)

creased work schedules. The monetary demands of the Association's third and last proposal would provide increases in total cost to the college and taxpayer that would exceed 24%. (The 16% cost of the teachers' package published in the Bay City Times, August 31, 1974, did not reflect the true cost of the proposal). The actual 24% increase in salary and fringe benefits does not include the cost of increases in staff necessitated by demands for decreased work schedules. By our estimate the cost of this proposal would be close to a 28% increase.

The Board finds that these repeated demands for more money and less work render it impossible to make intelligent counter proposals that would be fair to the instructional staff, fair to other college personnel, and fair to the community.

As for the faculty's statements in the newspapers comparing Kirtland with other community colleges and neighboring K-12 districts, it is apparent that important criteria for making valid comparisons has been omitted. For example, the reference in the September 5th edition of the Roscommon Herald about K-12 salaries did not include K-12 workloads, class size, or the number of hours spent teaching. We ask the Association to compare the fifteen contact hours that many Kirtland instructors have as a teaching load with the teaching load of the area K-12 instructors. The Board believes if such comparisons are to be made they should include all the pertinent data; not just the data that supports a particular point of view.

We urge the Faculty Association to re-examine its position and tactics. The Board negotiators will continue to bargain in good faith as they have since the commencement of bargaining. It is the intention of the Board to enter fully into the spirit of collective bargaining as provided by law. Further, if the faculty will respect Board responsibilities and present demands that are fiscally realistic, it should provide the stimulus for more productive negotiations.

Grayling JV's Top Charlevoix 38-6

The young Viking football team displayed a lot of potential talent and real desire against a good Charlevoix J.V. unit last Thursday evening in capturing a 38-6 victory to keep their undefeated season intact.

Offensive linemen Bill Dean and Mike Shelby provided superb blocking all night and tailback Will Roach took full advantage scoring four touchdowns and a two point conversion while carrying the ball 27 times for 270 yards. Quarterback Alan Johnston threw for 3 two point conversions with one going to end Bill Dean and one going to flanker Bill O'Mara. Grant Byce completed the scoring for Grayling with a fine 30 yard burst behind left tackle Dave White in the fourth quarter. Good downfield blocking

provided running room for the Grayling backs all evening.

Defensively the Vikings were lead by Bill Dean, 6'2" 185 pound end, Dave White, 6'3" 220 pound tackle, John Slater, 6'1" 180 pound nose guard and defensive back Mike Money. Slater was chosen defensive player of the week by his coaches. Marty O'Mara, Mike Shelby and Randy Erickson each recovered an opponent fumble during the contest.

The J.V.'s, coached by Chuck Mires and Larry Schlaack, will host St. Ignace tonight (Thursday) at 6:30 p.m. Grayling will be out to extend a J.V. home winning streak of seven games dating back to the 1972 season.

That wasn't a burp, Mr Ford

Would you believe that President Ford, the great pardoner, reminds me of little Michele and an old William Holden movie?

Michele is my 5-year-old granddaughter. We visited her the other day and she insisted upon showing us that she now knows how to ride a 2-wheel bike.

There are no sidewalks around Michele's home, so she had to stage her demonstration in the street, usually forbidden territory. Several adults watched nervously, at first, but Michele soon proved she had indeed graduated out of the training-wheel class.

She went back and forth, back and forth, a little wobbly but increasingly steady as she grinned greatly and her grandmother once again loudly asked the world if this little girl was not indeed the most marvelous child you ever saw.

But slowly it began to dawn on the adults that a large gap was growing between a forth and a back. Michele had extended the last forth over a slight rise in the road. She was out of sight for a minute but we all knew she would soon reappear. But she didn't.

And didn't. Michele's mother, who is not nearly as star-struck as Grandmother, finally went chugging down the road with elbows flying and steam hissing from her ears. You could almost hear the cymbals crash.

It seemed like an hour before mother and daughter returned, with daughter sobbing a bit and mother frowning mightily, perhaps pondering the unalterable fact that she has 2 more children younger than Michele.

The capture had been made as Michele was about to sit down to

lunch at a chum's home on the other side of town. Her parents had forbidden her to ride her bike so far but...well...it seemed like a good idea at the time. She had to show Grandma and Grandpa how she could ride her bike, didn't she?

And I thought about "Stalag 17," the fine World War II movie in which William Holden and buddies continually tried to escape from a German prisoner-of-war camp.

One ingenious plot involved a few prisoners painting the traditional white line down the middle of the road leading out of camp. The German guards watched calmly as they slowly painted their way through the front gate and down the street, innocent and industrious workmen. The prisoners had painted well over the horizon before the guards finally realized they intended to paint their way to New York.

It was a scheme worthy of the most marvelous child you ever saw. Classy.

That's where President Ford fell short. No class.

Ford thought he had firmly established his innocence and good intentions in the eyes of his admiring countrymen. He thought he could pardon Nixon, a suspected felon, as if his alleged crime were burping at dinner, and we would all cheer his good manners. Ford was wrong. He was overcome by the euphoria of the honeymoon and he didn't smell the toast burning. He took our love and abused it; he didn't realize we'd care, tra la la.

President Ford didn't paint slowly enough. He didn't go back and forth long enough. He could learn a lot from Michele.

Safest place in US? Coal Township

A veritable Shangri La with the unlikely name of Coal Township, Pennsylvania is a candidate for the title of near-Utopia garden spot of the year.

And the reason that Coal Township is in line for these hurrahs?

According to crime statistics released by the Federal Bureau of Investigation, Coal Township is the safest community in the nation.

In the FBI list of crime in cities of 10,000 and larger, Coal Township—which checks in with a population of 11,789—was one of only nine communities reporting no violent crimes during 1973.

And of those nine, Coal township reported the fewest total offenses.

"We haven't had a murder in Coal Township in 15 years," according to Police Chief Jesse Weaver.

Coal Township spreads over 42 square miles, around the town of Shamokin about 120 miles northwest of Philadelphia. Chief Weaver says Coal Township is largely a bedroom community for the work force in factories in nearby cities, and is a haven for retired folks.

"We don't have much marijuana and much heroin, none of that stuff," Chief Weaver commented in attempting to explain Coal Township's crime-free record.

"We do have police patrols out all night," he continued. "Our churches have extra activities to keep the young people off the streets."

Coal Township is not entirely crime-free, but it's close enough to satisfy most of us who have come to expect crimes of one sort or another as almost everyday fare.

For example, there were about 25 burglaries in Coal Township in 1973, and about a half-dozen stolen cars, as well as sneak thievery averaging about one a week.

But in Coal Township, there were no murders, no manslaughters, no rapes, no assaults, and no robberies.

For most of us, that would be plenty good enough.

Meanwhile, the rest of the nation didn't fare nearly so well. Figures for 1972 had shown a crime decrease of about 4 percent from 1971—the first decline in 17 years, according to FBI figures.

Then came 1973, with an increase of six percent over 1972. Seems as though things are back to normal, crime-wise. And in the first quarter of 1974, statistics show a 15 percent increase over the same period in 1973.

From a gross standpoint, more than 8 million serious crimes were committed in 1973, or one every 16 minutes. Murders were up five percent, assaults seven percent, and rape 10 percent.

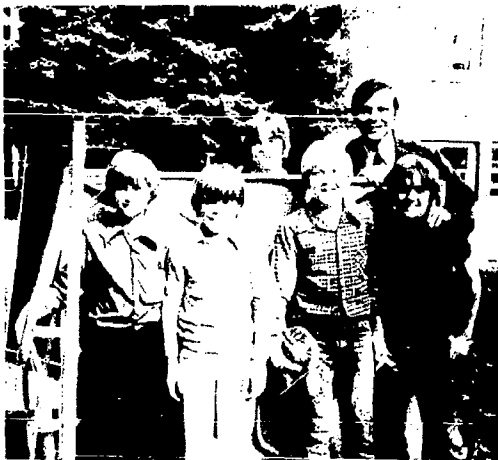

Except for Coal Township and the eight other 10,000-plus communities with no violent crimes reported, there was little to cheer about in the FBI figures. Who is in jail, anyway?

Entirely unrelated but interesting nonetheless is another survey, conducted by the U.S. Bureau of the Census in 1972, about the 141,900 inmates in the country's 3,921 jails.

About 95 percent of all inmates were male, about 60 percent were under the age of 30. The 21-24 age bracket had the largest group of prisoners, while inmates of 18 years or less made up only nine percent of jail population.

About 50 percent of inmates were unmarried, and 40 percent were unemployed at time of admission. About half were living on income below poverty level. Blacks comprised 42 percent of jail inmates, whites 56 percent.

California had the largest number of inmates at 25,348, while Georgia ranked first in number of inmates for its population total—132 inmates of 100,000 population; Hawaii at 15 per 100,000 and Iowa at 19 were low on this scale.

He will be recruiting 4-H club leaders and helping them get their 4-H clubs started. He will call on them from time to time to help them with any problems that may develop in the club.

"Jones has a wide experience and we feel he will be a great addition to our staff in Crawford County," Willard Bosserman, County Extension Director said.

Mrs. Earl Burns, 4-H Community leader in Grayling, welcomes some help in getting people to become leaders.

Mrs. Merrily Baldwin, Extension Home Economist for Crawford and Roscommon County will be giving Mr. Jones guidance in the 4-H club program.

The manpower position is for Crawford County, therefore, Mr. Jones won't be spending much time in Roscommon County.

CHEVROLET'S NEW EFFICIENCY SYSTEM

FOR 1975 It's the key part of a program aimed at helping our new cars run leaner (more economically), run cleaner—and save you money every mile.

The Efficiency System is standard on all 1975 Chevrolets with V8 or 6-cylinder engines. It's a series of significant engineering improvements working together for the very first time. Components include: High Energy Ignition, catalytic converter, Early Fuel Evaporation and steel-belted radial ply tires. In sum, the System is designed to heighten the pleasure and lower the cost of driving a 1975 Chevrolet—to bring you a better running car in many ways, along with improved fuel economy, more miles between recommended maintenance and an engine that stays cleaner internally because of no-lead fuel.

Your Chevrolet dealer will gladly give you the details and answer your questions. See him and the sensible 1975 Chevrolets starting September 27.

Attend The Church Of Your Choice

Too many pressing responsibilities in the Lord's work. The congregation couldn't afford to have its church painted.

But painted it was!

That was a glorious Saturday—no picnic or ball games, just hours of hard work. And what with the paint supplied at cost by a local dealer, and the brushes loaned by the very painter who might have hoped for the contract—nobody made a nickel!

But the remarkable thing is that nobody in town thought all this remarkable...

You know Christianity has had a deep influence on the life of a community when we begin to take for granted the zeal and sacrifice of Christian neighbors. The next step is to add our strength and faith to theirs in the worship and work of the Church.

One of the hardest working guys I know of ended up in the hospital last week. Editor Whitey Madsen of the Avalanche "turned himself in" and was promptly put to bed and through a series of tests and examinations. I didn't even know about it for a day or so, and then the stories that were given as the reasons were as varied as the colors of the leaves about now. So I went to see for myself. He never looked better. He also told me the real reason for being there and it wasn't anything like what I had heard around town. I assume he is out by now, working his usual hard, long days, including Saturday and Sunday. Come to think of it, that's a pretty good way to end up right back in there. Also out is Gene Case, securely trapped in a massive back brace, which is both useful and uncomfortable. He's easy to recognize; he walks like an animated wooden indian.

JP.

The We-Fall-'em-Anywhere Tree Removal Company recently surpassed any previous efforts. They dropped a very large jack - taking out phone line, power lines and ending up

on a car, causing all sorts of consternation and confusion. Not knowing what else to do after calling the utility companies (from a neighbor's), the owner and the cutters got a twelve pack and just laughed. It must have been pretty good beer, for the owner told them to finish up and they cut thirteen more trees in the same yard, probably under the dubious glares of the utility repairmen.

JP.

Someone asked me the other day why I didn't get mad at anyone anymore in the column. I told the person that I had nothing to get mad about—quite a bit to throw up about perhaps, but not much to arouse Jack to typewritten ire. Then something happened which really got to me. I went by the Little Cathedral in The Pines which a group of people from Grayling and Frederic have tried to restore and maintain during the spring and summer. Someone had swiped not only the vigil light, but the vigil light holder as well. Whoever it was also took the small glass jar which was used for the small donations to purchase new candles. Now that's just plain rotten and the type of person who would do a thing like that is worse than rotten. The light has absolutely no use to anyone other than those who believe that the light is a sort of continuous prayer. It was probably the same deranged person who took the Tabernacle from the Catholic Church earlier in the year. Well, anyway, there will be another light and if I say any prayers there, they will be for the person who took the first one. That's about all one can do for a character like that.

JP.

Would you believe you can get Chinese food in Grayling? Yep, at, oddly enough, Chief Shoppenagon's Motor Hotel. Every Wednesday night the owners decorate the dining room in an appropriate atmosphere and serve what is reported to be excellent Chinese cuisine. Oh, there were a couple of complaints about the food being cold, but that was due, probably, to inexperience. Genial host Arnie tells me that simple problem has been ironed out now, and that future Wednesday-nights will be sheer delight. Personally, I wouldn't know good from bad Chinese food. But people who have been there say it is superb. I don't like Chinese food - not one little bit. If I had my druthers, I'd druther eat Gravy Train. Anyway, give it a try on Wednesday. It's something new and different in Grayling, and right now we need something new and different.

County Board of Commissioners Minutes

Regular meeting of the Crawford County Board of Commissioners held in the Court House in the City of Grayling on September 9, 1974.

Meeting called to order by Chairman Longworth. Invocation by Mr. Kauffman.

Roll Call: James Bourrie, Lawrence Gust, Fred Kauffman, Earl H. Longworth, Bernard Maurer, Dean Welch, Albert Westervelt—All Present.

MOTION by Kauffman, second by Bourrie, that the minutes of the August Session be approved, as read. Roll Call. All Aye. Motion Carried.

HEALTH & WELFARE COMMITTEE REPORT by Kauffman. Commissioners Kauffman and Welch attended Michigan Association of Counties meeting at Mackinac Island. Several resolutions were approved; they opposed a resolution whereby counties would have to pay for state audits. Mr. Kauffman attended a District Health meeting August 28 and 29 at Hidden Valley. Second District of MAC meeting was held in Grayling on September 4. Northern Counties Association meeting was held at Grayling, at which time a resolution opposing House Concurrent Resolution No. 513 was passed. Through the efforts of Michigan Association of Counties, they are trying to organize all counties to participate in a Hospital Insurance program with more benefits at less cost, effective January 1, 1975.

MOTION by Welch, second by Gust, to adopt the following resolution which was offered by Northeast Michigan Regional Commission. Roll Call. All Aye. Motion Carried.

WHEREAS House Concurrent Resolution No. 513 has been offered before the legislature of the State of Michigan and is now referred to the Committee on House Policy, and

WHEREAS said resolution if adopted could place extraordinary control of public lands in the administrative division of a single department of state government, namely the Department of Natural Resources, and

WHEREAS said administrative control implies loss of jurisdiction by both the State Legislature and local elected governments generally, and specifically removes public land from the jurisdiction of elected government officials with respect to its use for waste disposal, and

WHEREAS passage of HCR 513 would seriously jeopardize present and future implementation of planning undertaken by elected local government bodies throughout the State of Michigan, now therefore be it

RESOLVED that this Commission, on behalf of the local elected governments comprising State Region Nine, hereby petitions the Members of the House and Senate of the State of Michigan that House Concurrent Resolution No. 513 be rejected, and be it further

RESOLVED that this Commission ask that the eight counties of Alcona, Alpena, Cheboygan, Crawford, Montmorency, Oscoda, Otsego and Presque Isle seek, from the 103 local elected government units therein contained, resolutions endorsing this Commission's position with respect to HCR 513 and that those resolutions be immediately sent to the Commission offices to be forwarded to the appropriate Committees of the State House and Senate.

Mr. Howard Taylor, Director of Emergency Preparedness, was asked several questions in regard to program. He is to attend the annual training session at Higgins Lake Training School on September 24. He informed the Board that Crawford County is in good standing with the federal government, as all their requirements have been met.

Mr. Rod Parker, of the Northeast Michigan Regional Commission, explained CETA Program to the Board, and asked for a resolution whereby they would be joining this program.

MOTION by Gust, second by Westervelt, to adopt the following resolution. Roll Call. All Aye. Motion Carried.

Being a Resolution to become party to formation of a Manpower Consortium.

WHEREAS the United States Comprehensive Employment and Training Act of 1973, Public Act 93-203, hereinafter referred to as "CETA," provides for regional manpower programs, and

WHEREAS Michigan Public Act 8 of 1967, Michigan Compiled Laws 124.531 through 124.536, hereinafter referred to as PA8, provides for the transfer of functions and responsibilities of two or more political subdivisions to one another or any combination thereof, and

WHEREAS the Counties of Alcona, Alpena, Cheboygan, Crawford, Montmorency, Oscoda, Otsego and Presque Isle, hereinafter referred to as "the Counties," desire to revoke previously enacted resolutions in conflict herewith and to establish a manpower consortium to assure local control by elected public officials of plans and programs under CETA, now therefore

BE IT RESOLVED that all previously enacted Resolutions of this County which conflict with this Resolution or its intent are hereby revoked and voided, and further

BE IT RESOLVED that this County hereby agrees to join in the formation of, and become party to, the Northeast Michigan Manpower Consortium, in concert with the Counties hereinbefore named, and further

BE IT RESOLVED that this Board of Commissioners hereby directs its Chairman to execute on behalf of this County the "Northeast Michigan Manpower Consortium Agreement," which same is appended to and becomes part of this Resolution, and further

BE IT RESOLVED that the Chairman of this Board of Commissioners and the Clerk of this County are directed to enter into all such negotiations and agreements requisite to the pursuit of the expression and intent of this Resolution, which same negotiations and agreements are not inconsistent with CETA, PA8, or other Law or Regulation promulgated by the United States, the State of Michigan, or this County.

Hubbell-Selesky Speak Vows

Karen Elaine Hubbell and Jeffrey Alan Selesky were united in marriage on September 7th at the First Congregational Church in Roscommon. The Rev. William MacFarlane officiated at the afternoon ceremony.

The bride is the daughter of Mr. and Mrs. Basil Hubbell of Roscommon, and the groom is the son of Mr. and Mrs. John L. Selesky of Rose City.

Given in marriage by her father, the bride chose a white organza gown fashioned with lace bodice, high neck and long sleeves. Two tiers of lace trimmed the sweep chapel train. A lace-edged finger-tip veil completed her attire. She carried a bouquet of white and blue carnations, pink roses and white spider mums.

Miss Laurie Hubbell, sister of the bride, served as Maid of Honor. She wore a blue flowered gown and carried one long stemmed pink rose. The flower girl, Laurie Westphal of Roscommon, wore a gown of fuchsia and print and carried a

basket of white carnations and pink rosebuds.

Michael Brosier of Midland served as best man. Brian Hubbell and Michael Selesky, brothers of the bride and groom, were ushers.

Jane Rutledge, a childhood friend of the bride, presided at the organ. Jane Matthews, friend of the groom, sang "The Wedding Song" and "We've Only Just Begun."

A reception was held in the Church Fellowship Hall.

Following a honeymoon in the Bahamas, the couple will reside in Sault Ste. Marie where the groom is employed. The bride will continue her studies at Lake Superior State College.

Karen attended grade schools in Grayling, and Jeff will be remembered as the grandson of the late Minnie Hartley, long time Grayling resident.

Volunteer Anyone?

"Help Me Read"

Grayling Elementary School Testing, re-testing and scheduling students into the Reading Room has kept our new Reading teacher, Mrs. Marianne Knepp, busy for the past three weeks.

We are now scheduling volunteers!! At the present time we have eighteen volunteers working with reading students (five of which are high school students), three volunteers serving as tutor substitutes, four volunteers are working in the lunchroom, four volunteers are scheduled to work in the Resource Room under the direction of Mrs. Juanita Smith and two volunteers have been working for several weeks helping Mrs. Knepp make games and teaching aids for the

Reading Room.

This is a good beginning! Our goal this year is once again to have our volunteer aides work on a one-to-one basis. One volunteer for each student. To achieve this goal, many volunteers are needed. If you would like to share the experience of helping a child improve his or her reading skills, please contact Irene Pettyjohn at 346-7641.

Football

(continued from page 1)

15:8 at halftime.

In the first series of downs in the 2nd half, the Rayders had the ball with a 3rd and 15 when the Vike defense again relaxed, allowing Steeter to blast through them for a 78 yard gallop for a TD and 21-8 lead.

Early in the final stanza, Hanson blocked a Charlevoix punt, and 4 plays later Bonamie went in from 5 yards out to make it 21-14 with 10 minutes left in the game.

The Rayders picked off a Bonamie pass to set up their final TD with Steeter crossing the goal line for his final score.

Last minute pass attempts by the Vikings "heavily worked" but the slippery ball just couldn't be handled that appeared to be touchdowns.

Don Vollmer and John Tobin recovered Rayder fumbles with Tobin's coming in the end zone and prevented a Rayder TD.

Vollmer, Larry Baynham and David Lovely played outstanding in the Viking line, as Ron Hall led the linebackers, and Bonamie the secondary on defense.
